

Selected Links and Resources

Adding Value . . .

TABLE OF CONTENTS

LINK Newsletter

— Volume 9, Number 3, Winter 2008 —

- Future shortage of forest workers drives home need for recruitment efforts
- Climate change becomes a priority issue for FIA–FSP funding in 2007–08
- A study of ecological, social, and economic trade-offs: Managing forests for culturally valued plants
- Accessing the red zone: Road building techniques in MPB-affected stands
- Forest and Range Evaluation Program: Developing a monitoring framework for cultural heritage resource management
- Silviculture operations in the Cascades: A summary of the Merritt Summer Field Tour
- Mountain pine beetle impacts and fisheries sensitive watersheds
- The Aleza Lake Research Forest: Northern BC Archives preserves and catalogues data and artifacts
- Range Vegetation Data Project reveals lost layers of research
- Burning debris and managing smoke along eastern Vancouver Island
- UNBC Field Tour – Mountain pine beetle challenge bigger: Managing for new economic and ecological realities
- FPInnovations presentation: Lumber manufacturers must also adapt to unprecedented MPB changes

TABLE OF CONTENTS

Streamline Watershed Management Bulletin

— Volume 11 Number 2, Spring 2008 —

- Climate change and watershed hydrology: Part 1 – Recent and projected changes in British Columbia
- Climate change and watershed hydrology: Part 2 – Hydrologic implications for British Columbia
- Using stereoscopic high spatial resolution imagery to map forest stands and landslides
- Groundwater in British Columbia: Management for fish and people
- Electrical conductivity as an indicator of water chemistry and hydrologic process
- Taming Stoltz Bluff: Long-term fine sediment management on the Cowichan River
- Update
